The Care and Cleaning of Premium Vinyl Siding & Soffit

Like any other exterior siding surface, Vinyl Siding and Soffit will have exposure to atmospheric conditions. Therefore, the cleaning and/or cleaning solution used will vary and may be subject to your own discretion. However, failure to clean and care for your Vinyl Siding and Soffit will result in a loss of your warranty. The following general guidelines have been created to help you maintain your siding and soffit.

1. Use a soft-bristled, long-handled window brush. It is best to clean your screens and to use a window cleaner on the screens. Do not use abrasive, soaps that create excess water over the siding.

2. For hard to remove dirt, such as dirt and grime found in industrial areas, use the soot-brush with a solution consisting of the following ingredients: 1/4 cup powdered detergent (Tide® or equivalent powder detergent) 1/2 cup bleach (OxiClean® or equivalent) 1/2 cup Castile soap (Method® or equivalent) 1 gallon water

3. If mold is a problem in your area, prepare the solution above but add 1 quart of laundry bleach for 1 quart of water.

4. If you wash down the entire house, start at the bottom and work up to the top, or less streaking will result.

The HEATING, COOLING OR SIMILAR COSTS AND HARM TO PROPERTY, RESULTING LIKELY TO OTHER EXTERIOR SURFACES, PREMIUM VINYL SIDING AND SOFFIT, WILL HAVE MAY CREATE GLOSSY AREAS OVER THE SIDING FINISH. DO NOT USE CLEANERS CONTAINING ABRASIVE PARTICLES, DETERGENTS, OR ALCOHOL-BASED CLEANERS. USE A SOFT BRISTLED WINDOW CLEANER WITH A SPONGE TO CLEAN THE SIDING AND SOFFIT.
