NEW DEEPER, RICHER COLORS!

Everything but the smell of fresh paint. Premium thickness provides unparalleled durability. Preservation Board & Batten Siding reproduces the natural look of wood as if it were applied with a painter's brush. And the best part is, it comes in a variety of colors and textures to perfectly complement your home.

SOFFIT: SUPERIOR STRENGTH AND BEAUTY

Preservation Board & Batten Siding's deep-shadowed soffit sets your home apart. Fully reflects your individual tastes and desires – one that provides the elegant graciousness of their handcrafted wood finish to your home’s exterior. Add visual emphasis to gable ends, entryways, dormers or vertical siding with foam insert trim which complements your siding and design.

FINDING YOUR IDEAL TOUCHES

The creative use of trimworks accessories can provide the elegant graciousness of their handcrafted wood finish to your home’s exterior. Add visual emphasis to gable ends, entryways, dormers or vertical siding with foam insert trim which complements your siding and design.

EASY-CARE CONVENIENCE

Wood soffit looks good, but it can warp and rot after several years. Preserve the natural look you want by choosing Preservation’s superior quality, maintenance-free vinyl soffit. It’s the right choice for attics and walls. Enhanced with WeatherShield, the paintable vinyl soffit protects the soffit and the house from the elements.

PAINTED WOOD APPEAL

Framed, soffit, frieze, cornices and trim will never require painting again. Choose a color to suit your home’s needs, and watch it look beautiful year-round. The natural look and beautiful proportions of Preservation’s heritage-inspired Vinyl Soffit can be combined with gable ends, entryways and vertical siding for a distinguished look. All colors are available in Matte and Soft Matte finishes for rich color and low-gloss performance.

SURFACE MIRROR

The smooth, non-porous surface of the Premium Matte (.048”) and Premium Oak Grain (.046”) vinyl siding will not dent, scratch or crack. The soft matte surface resists season -4 technology and is self-healing. Its deep-shadowed shadow lines on the nailing hem allow installers to match up the nailing hem of the second horizontal with that of the first. This orientation prevents seasonal movement as it’s often what visitors see up close. The smooth surface also makes it easier to clean and maintain.

SUPERIOR INSULATION

Soffit continuously attain higher levels of insulation and energy efficiency, important for energy-conscious homeowners. The improved attic performance of Preservation’s Vinyl Soffit sets your home apart from the rest. Soffit Alliance’s technology design will provide the maximum attic efficiency. Individual air pockets in the nailing hem are tested and certified to contribute to your attic’s performance. As a result, in independent tests, Preservation Shakes and Scallops withstood hurricane-strength winds.

EQUIPMENT 5 TECHNOLOGY

‘5 technology is Preservation’s industry-leading hurricane-strength technology. No other product can withstand 150-mph winds. With this new technology, Preservation Siding withstands all codes and regulations for wind force 5 and safer homes. Preservation’s proprietary, hurricane-strength technology provides complete protection against catastrophic weather events. It’s your home. Enjoy the peace of mind and energy efficiency that comes from choosing this superior WeatherShield Vinyl Siding.

CLASSIC BEAUTY AND RUGGED, NATURAL PERFORMANCE

HAND-SPLIT SHAKES

Preservation Shakes provide historical accuracy and material authenticity. If your home has a historical feel or is in a historic district, these shakes provide the elegant graciousness of their handcrafted wood finish to your home’s exterior. This is why the creative use of trimworks accessories is the ultimate opportunity for homeowners to take advantage of this beautiful design.

SCALLOPS

Preservation Scallops provide historical authenticity. The soft matte texture and rich color of these shake-scallop designs provide the elegant graciousness of their handcrafted wood finish to your home’s exterior. These shake-scallop designs are ideal for creating frieze boards and bands, or to create a strong visual emphasis to any archway. The deep-shadowed shadow lines on the nailing hem allow installers to match up the nailing hem of the second horizontal with that of the first. This orientation prevents seasonal movement as it’s often what visitors see up close.

VERTICAL COLUMN

Gables, corners, archways, and classic home features can benefit from the elegance of Preservation’s trimworks accessories. Corners help define the proportions of the home. This is why the creative use of trimworks accessories is the ultimate opportunity for homeowners to take advantage of this beautiful design.

ENTRYWAYS

Preservation’s unique insulation system comes with a long-lasting finish that provides the natural look of wood. This is why the creative use of trimworks accessories is the ultimate opportunity for homeowners to take advantage of this beautiful design.

WINDOWS

Preservation’s unique insulation system comes with a long-lasting finish that provides the natural look of wood. This is why the creative use of trimworks accessories is the ultimate opportunity for homeowners to take advantage of this beautiful design.

TRIM WORKS

SOFT SURFACE & VERTICAL SIDING

SPF: SUPERIOR STRENGTH AND BEAUTY

Preservation Premium Vinyl Siding, a hard, smooth, non-porous surface. It repels dirt, debris and grime. This surface is not paintable and will not scratch or scuff. The smooth surface also makes it easier to clean and maintain.

VERTICAL SIDING: THE PERFECT ACCENT

Preservation Board & Batten Siding reproduces the natural look of wood as if it were applied with a painter’s brush. And the best part is, it comes in a variety of colors and textures to perfectly complement your home.

PREPARATION BOARD & BATTEN LOOKS LIKE WOOD, BEHAVES LIKE VINYL

Preservation Board & Batten Siding looks like wood and has the natural look of wood. It’s made of weather-resistant vinyl, so rain and humidity don’t cause distortion or dry rot as it would with wood. Preservation Premium Vinyl Siding is easy to install and provides the natural look you want. Preserve the natural look you want by choosing Preservation’s superior quality, maintenance-free vinyl Board & Batten siding. It’s the right choice for attics and walls. Enhanced with WeatherShield, the paintable vinyl Board & Batten siding protects the Board & Batten siding and the house from the elements.
Preservation Siding delivers an IR rating of 340 psi. That’s five times the impact resistance of ordinary siding.
