INTEGRATED MINI BLINDS ON SELECT SLIDING PATIO DOORS

AN ELEGANT LOOK *with added convenience*

A BEAUTIFUL SOLUTION FOR CONTROLLING LIGHT

AN ENHANCED AESTHETIC STYLE

PRESERVATION SLIDING PATIO DOORS OFFER THE ADDED CONVENIENCE OF A MINI BLIND BETWEEN THE GLASS AND AN EASY FINGERTIP CONTROL TO TILT OR LIFT THE BLIND WITH A SINGLE OPERATOR.

Our patio doors with integrated mini blinds will enhance the aesthetic style of your door with a clean-line design. The cordless blind is sealed between the panes of glass, keeping it free from dust and damage. Your door will have an upscale appearance with optimal functionality.

ADVANCED TECHNOLOGY FOR OPTIMAL STYLE AND PERFORMANCE

1. No-slip gear belt provides smooth, reliable lift and tilt operation.
2. Single cord-winding shaft ensures improved "stack," which prevents the blind from coming in contact with the glass surface.
3. A single operator tilts and lifts the blind for convenient control of sunlight and privacy.
4. Self-leveling bottom rail allows the blind to be re-leveled if it becomes unbalanced.

INNOVATIVE DESIGN, GREATER CONVENIENCE

- Blinds remain practically dust-free in the sealed insulated glass unit.
- No cords, no tangles – integrated cordless blinds eliminate the risk of children or pets getting entwined in the cords.
- Rigorously tested at 290,000+ cycles, far exceeding the industry standard of 3,500 cycles.
- Withstands use of doors opening and closing.
- Integrated mini blinds are backed by an industry-leading 20-year limited warranty* – further assurance of quality and value.
- Mini blinds are available in white only.
- Featuring patented design innovations.**

ENERGY-SAVING OPTIONS

- ENERGY STAR® qualified options are available.
- **EnergyMaxx® Stainless Steel LT** – Double-paned insulated glass unit with one pane of Low-E glass and stainless steel Intercept® Spacer.
- **EnergyMaxx Stainless Steel LT SF** – Double-paned insulated glass unit with two panes of Low-E glass (surface 2 and 4) and stainless steel Intercept Spacer.
