Re: 2025 -Energy Efficient Home Improvement Credit

Dear AMI Product Owner,

Individuals seeking to receive Energy Efficient Home Improvement Credits for Associated Materials Innovations (AMI) Products purchased in 2025 should use the following Qualified Manufacturers Identification Number (QMID):

**QMID: S9A4**

Please note: For tax and reporting purposes, the correlating company name will appear as **Thunderbolt Topco LLC**, the parent holding company of Associated Materials, LLC.

It is not necessary to submit a 17-digit Qualified Product Identification Number (QPID). The QPID requirement would have gone into effect for products purchased in 2026. However, because the One Big Beautiful Bill legislation ended the Energy Efficient Home Improvement Credit on December 31, 2025, the QPID will not go into effect.

Sincerely,  
Associated Materials Innovations (AMI)
